

INSIDE THE F-B-NIGHT BASEBALL ASSOCIATION

ROSTERS: All rosters have been updated except Galactic and New England. I also may have screwed-up the rosters on the last page. I did this late at night and push myself to finish. I'm sorry about any errors.

I'm not going to SOM for opening day so remember to order your cards early. See you after the new year.

COMMISSIONERS NOTE: Page 9 of the Constitution, under Difinitions: A. GWRBI please eliminite it.

Hilltopper Highlight *The new team logo for Klee's Klubbers was unveiled at Jim Bouton Field amid much fanfare. The emblem consists of a vertical bat below which is a likeness of GM and Owner-for-Life Klee. The over-all effect is that of an exclamation point as befits such an exciting team.

* Many fans would like to have held a bat to Klee's head when it was announced that concession prices would be increased substantially. But, Klee was unmoved. "We have no TV or radio contract and noboby comes to our games so I want a bite out of every Klubber Dog and Bouton Burger sold here."

* Wild rumors have been circulating Hartford's South End that second baseman Jerry Browne is available. One distrought fan reportedly fainted just outside the main ticket office at Congress and Morris Streets upon learing the rumor. Though the front office has been uncharactistically mum, it's been suggested that only a number 3,4, or 5 hitter could pry Browne loose.

Roland

Commissioners note:

Trading draft picks and number of cuts required to cover the draft pick traded. I called Roland Klee to make a trade. We talked draft picks. I asked him how many players he planned to cut. Roland said eight. I ask him lets make a deal for your numbers 6,7 & 8 draft picks. He would not be using them because he has eight draft picks in the first five rounds. Roland asked about the rule on page 4 section X-B2, where a manager must cut 5 players if he traded his 5th round pick. (Would Roland have to cut more players if he traded me his 6,7 & 8th DP?) ANSWER: YES! Roland would have to cut 3 more players to reach the 8th round draft pick that he traded away.

The reason I'm reminding everyone of this rule now is to avoid any problems on cut down day. If you have traded a DP and you have any questions about this rule call or write me.

When GM's mail in protected rosters to Commissioner please use this example.

List all feilders first.... LIST PLAYERS NAME. TEAM NAME.

Backman,W. Minn.

Buckner,B. KC

Next list all pitcher.....Gooden,D. NYM

Boyd,D. Bos

Next list all draft picks own and traded. PLEASE list them like this.....

~~(Allyn Street's list)~~

ROUND 1. AS

2. AS

3. X (x = means this DP has been traded)

4. AS

5. AS & WW

Another example could look like this..(FAKE example for Klee's).....

ROUND 1. KK & HP

2. KK, WW & GG

3. X, WH (He traded his DP BUT picked up indson's.)

4. KK & AS

This method was used by Florida and it makes it very easy for me to check out the number of cuts needed to cover our rule.

THANK YOU for your co-operation.
