November 15, 2018

1974 - 2018

Vol. 45, Issue 26

Commissioner Rob Bruno. Presidents - American League Ed Griffin - National League Bob Figella

You don't have to vote but remember you must return a ballot by 8pm on November 25th. Won't be seeing you until after the holiday so to all of you and your families, Happy Thanksgiving! – Rob

## **Voting Ballot:**

- (A). Rob Bruno for Commissioner. (A) Yes\_\_\_ No\_\_\_  
(B). Ed Griffin for American League President. (B) Yes\_\_\_ No\_\_\_  
(C). Bob Figella for National League President. (C) Yes\_\_\_ No\_\_\_

### **(1). Change the playoff rule from 5 IP available to 4 IP available in order to start a game.**

A pitcher may not be scheduled to start in the playoffs unless he has at least 4 innings available for the start. A starting pitcher must pitch 4 innings unless he gives up 3 runs or he is tired or he is injured or in the 4th he has given up 2 runs and the 3rd run is in scoring position. If a starter gives up 5 runs in any 1 inning, 6 runs in any 2 consecutive innings or 7 runs in any three consecutive innings he will be considered fatigued. Readings followed by dots become singles\*\*.

- 1A. Change the playoff rule from 5IP available to 4 IP available. 1A.\_\_\_\_\_  
1B. Keep the present rule at 5IP to be available. 1B.\_\_\_\_\_

### **(2). Post Season Injury Rule:**

Our current rules (section XI.6) state that if your last fielder or last pitcher is injured and *must stay in game because no player is left on the bench (the DH or a pitcher does not have to come into the game to play a position) the player shakes off the injury plays the rest of the game as normal. But, roll the injury dice to see how long the injured player will be out starting with the NEXT game. If a pitcher must stay in the game to pitch (position player does not have to come in to pitch) he will shake off the injury and stay in the game as normal but if he is a S/R or relief only he will miss the next game in the series or the manager can bring in a position player to pitch. If a position player comes in to pitch use the chart given by SOM.* However, in the playoffs our rules also states that injuries do not carry over when changing parks after games 2 and 5. For the regular season the rule makes sense since it is impossible to carry over to the next series. In the playoffs though we know the next series and it is played in order. We need to be clear if the injury carries over to the next game if it occurs in games 2 or 5 of the playoffs in this rare situation. Since you obviously have an advantage of keeping the injured player in the game there should be some potential risk for keeping him in the game.

- 2A. In the Post Season if the last fielder or pitcher is injured in games 2 or 5 and stays in the game the injury WILL NOT carry over to the next game or games. 2A.\_\_\_\_\_

- 2B. In the Post Season if the last fielder or pitcher is injured in games 2 or 5 and stays in the game the injury WILL carry over to the next game or games with the off day reducing the FBN injury by one game (rest of game becomes 0, rest of game plus 1 becomes 1 game, and rest of game plus 2 games becomes 2 games). 2B.\_\_\_\_\_

### **(3). Proposal: Use the SOM pitcher individual hitting cards and the 1-8 cards for pitchers that do not receive an individual hitting card. Same usage as in the past. For the 1-8 cards and 110% for the PHC.**

- 3A. Use the SOM pitcher hitting cards. 3A.\_\_\_\_\_  
3B. Keep the present rule not to use the SOM individual pitcher hitting cards. 3B.\_\_\_\_\_

### **Maximum Rule changes. 4 & 5.**

- 4A. Allow "Improve baserunning realism". 4A.\_\_\_\_\_  
4B. Keep the present rule and do not allow "Improve baserunning realism". 4B.\_\_\_\_\_

- 5A. Allow more baserunning decisions. 5A.\_\_\_\_\_  
5B. Keep the present rule and do not allow more baserunning decisions. 5B.\_\_\_\_\_
